

SPECIAL SCENARIOS

SUICIDE & SELF HARM CONTINUED

3. Utilize our ABC method of engagement with students:

- A – Affirm them for sharing
- B – Behavior – address the behavior that concerns you
- C – Consequence – share with them the next step you are taking (ie – sharing with Lead Team about specific behavior because you care, etc)

KEEP IN MIND

- Self-manage your own emotions and responses
 - How am I reacting vs responding?
 - Am I staying calm or freaking out?
 - Am I asking questions or demanding responses?
- Affirm the individual and your care for them (the ABC's)
- No shame language (ie – “you’re a Christian, you shouldn’t think that way or do that” etc.)
- Remind them temptation is normal and part of the Christian life. We have a spiritual enemy that puts thoughts in our head. Nothing is wrong with you. It is normal to feel bad or shame for our temptations, but talking about them, sharing and PRAYING breaks the power of the temptation. (1 Jn 1:7; James 5:16)

Here is a scale that can help you assess where the student is at as you ask questions:
